Professional Summary

Frontend Engineer with nearly **2 years of experience** building **scalable, performance-optimized web applications** using **React.js**.

Experienced in **enterprise dashboards, role-based platforms, and e-commerce applications**, with strong focus on **API integration, state management, and UI performance**.

Core Skills

- **Frontend:** React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3
- **Styling:** Tailwind CSS, Material UI
- **State & Data:** Redux, Tanstack Query (React Query), Axios
- **Data Visualization:** AG Grid, Highcharts
- **Tools:** Git/GitHub, Vite, Jest, React Testing Library

Professional Experience

Software Engineer | Apr 2024 – Present

Invendis Technologies India Pvt Ltd – Bengaluru

- Developed **React-based enterprise monitoring applications** for telecom and energy domains.
- Built **real-time dashboards** using **AG Grid and Highcharts** with API-driven data.
- Improved performance by reducing **bundle size from 20MB to 6MB**, achieving ~50% faster load time.
- Implemented **RBAC UI, dynamic forms**, and reusable components across applications.

Key Projects

- **Masters : Role & Configuration Platform (React)**
 - Developed a **role-based configuration platform** with dynamic forms and API integration.
 - Enabled **one-time master configuration** for sites, devices, users, and roles, reused across multiple enterprise applications.
- **Pizgloria : Telecom Monitoring App (React)**
 - Built a **real-time telecom monitoring dashboard** for **3000+ sites**.
 - Optimized large datasets using **server-side pagination and virtualization** in AG Grid.

Education

B.E – Electronics & Communication Engineering KS Institute of Technology (KSIT)
