Professional Summary

Frontend Developer with ~2 years of experience building high-performance web applications and e-commerce platforms. Proficient in React, TypeScript, Next.js, and backend APIs. Delivered enterprise dashboards, optimized application performance, and shipped responsive UIs for telecom and agricultural tech platforms.

Professional Experience

Software Engineer | Apr 2024 – Present

Invendis Technologies India Pvt Ltd – Bengaluru

- Built and optimized React-based monitoring applications for telecom and energy domains.
- Reduced bundle size 20MB → 6MB, improving load time by 50%.
- Implemented RBAC UI and real-time dashboards using Highcharts & AG Grid.

Key Projects

- **ArecaMart** : B2B E-Commerce Platform - Built Next.js e-commerce platform with product catalog, inventory management, and payment gateway integration. Implemented responsive product pages with advanced search and filters for supplier-distributor transactions.
- **Masters** : Configuration Management System - Developed React dashboard for system settings, roles, and multi-environment permissions management. Implemented dynamic forms, role-based UI rendering, and real-time API synchronization, reducing configuration time by 40%.
- **Pizgloria** : Telecom Tower Monitoring - Built React monitoring app with real-time alert dashboards and Highcharts visualization for telecom infrastructure. Integrated multiple data sources with custom filtering logic for equipment health tracking and maintenance optimization.

Core Skills

- **Frontend Technologies** : React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, Material-UI, Responsive Design, Redux, React Query, Axios.
- **Data Visualization & Tables** : Highcharts, AG Grid, Real-time Dashboards.
- **Development Tools & Testing** : Vite, Jest, React Testing Library, Git/GitHub.

Education

B.E – Electronics & Communication Engineering, KS Institute of Technology (KSIT).

GPA : 7.12/10.00
